Appendix

Calculation of conversion of polymer in step polymerization

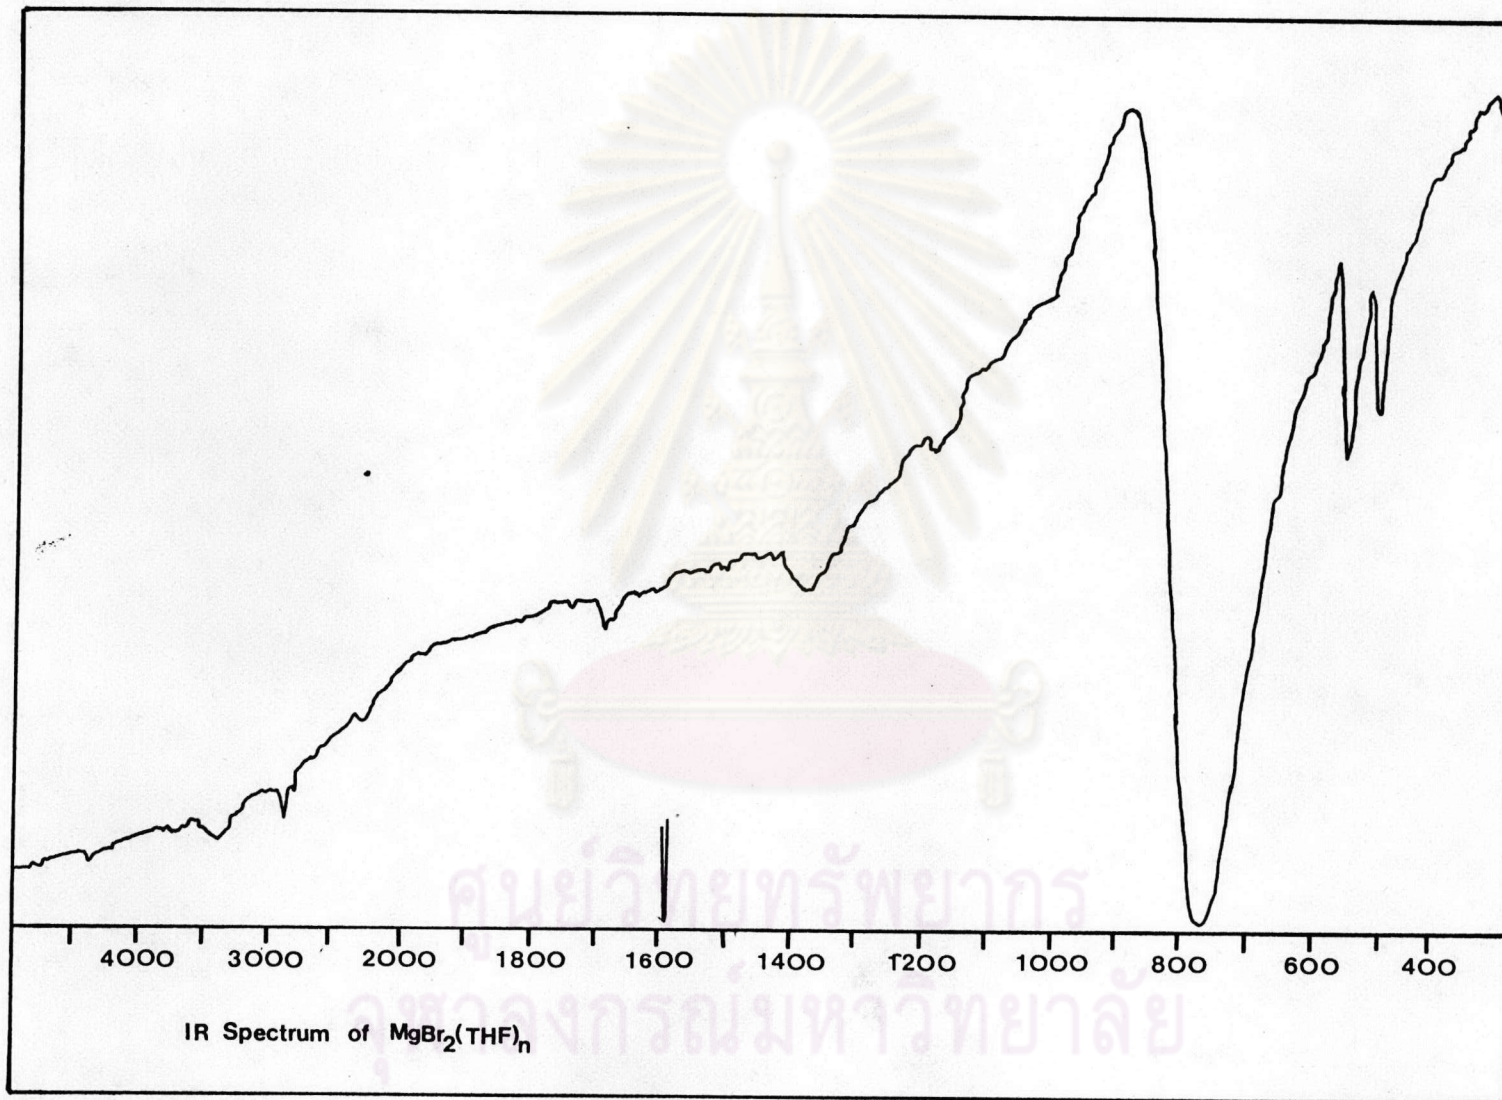

A = % Conversion of polymer

$$A = \frac{N_0 - N}{N_0}$$

N_0 = the initial (at $t=0$) concentration of monomer

N = concentration of monomer at time t .

Vita

Mister Patipol Tadakorn was born on January 10, 1962 in Bangkok. He receive a Degree of Bachelor of Science in General science from Chulalongkorn University in 1984 and Since 1987, he was been a graduate student in the Petroleum and Petrochemical College.
