APPENDICES

Appendix A Polymer Solution Properties

For polymer solutions to study effects of solvent electrical conductivity on morphology of electrospun fibers, chloroform was used as a solvent. Raw data of electrical conductivity at 25°C depended on PHB and PHBV solution were shown in Table A1

Table A1 Raw data of electrical conductivity at 25°C of PHB and PHBV solution

Polymer Solution	Concentration (wt.%)	Electrical Conductivity ($\mu\text{s}/\text{cm}$)				
		1	2	3	Average	SD.
PHB	10	0.060	0.070	0.060	0.063	0.006
	12	0.070	0.070	0.070	0.070	0.000
	14	0.070	0.070	0.070	0.070	0.000
	16	0.070	0.070	0.070	0.070	0.000
PHBV	10	0.060	0.050	0.050	0.053	0.006
	12	0.070	0.060	0.060	0.063	0.006
	14	0.070	0.070	0.070	0.070	0.000
	16	0.080	0.070	0.080	0.077	0.006

Molecular weight has a significant on the rheological properties such as viscosity, surface tension, conductivity and dielectric strength. As shown raw data in Table A.2, viscosity of polymer solution was varied by PHB and PHBV concentration (at molecular weight of 300,000 g/mol (PHB) and 680,000 g/mol(PHBV)).

Table A2 Viscosity of polymer solution varied by PHB and PHBV concentration

Polymer Solution	Concentration (wt.%)	Electrical Conductivity ($\mu\text{s}/\text{cm}$)				
		1	2	3	Average	SD.

Appendix B Contact Angle

Wettability was examined by measuring contact angles. The contact angles were measured for the films and electrospun ultrafine fiber meshes with a sessile drop method using a Contact Angle Meter. Distilled water of approximately 40 μl was gently plated on the surface of the specimens. At least ten reading on different parts of the specimens were averaged for data collecting as shown in Table B1.

Table B1 Contact angle of solution-cast films

Appendix D Cell Study

Indirect cytotoxic evaluation of fibrous scaffolds from electrospun mats of PHB and PHBV and their blend fibers based on viability of human osteoblasts (SaOS2) and mouse fibroblasts (L929).

CURRICULUM VITAE

Name: Ms. Korakot Sombatmankhong

Date of Birth: December 25, 1981

Nationality: Thai

University Education:

2000-2004 Bachelor Degree of Science in Industrial Chemistry, Faculty of Science, Chiang Mai University, Chiangmai, Thailand.
