APPENDICES

APPENDIX A

Colorimetric Method for Chromium (VI) Analysis

1. Principle

This procedure measures only hexavalent chromium. It is determined colorimetrically by reaction with diphenylcarbazide in acid solution. A red-violet color complex is produced that can be measured at 540 nm.

2. Special reagents

2.1 *Stock chromium solution*: dissolve 141.1 mg K₂Cr₂O₇ in double distilled water and dilute to 100 mL; 1.00 ml = 500.0 µg Cr⁺⁶.

2.2 *Diphenylcarbazide solution*: dissolve 250 mg 1,5-diphenylcarbazide in 50 mL acetone. Store in a brown bottle. Discard when solution becomes discolored.

3. Procedure

a. Sample measurement

1. Transfer solution to a 100-ml.
2. Use 0.2 N H₂SO₄ and a pH meter to adjust solution to pH 1.0 ± 0.3, diluted to 100 mL, and mixed.
- 3 Add 2.0 mL diphenylcarbazide solution, mix and allow 5 to 10 minute for full color development.
4. Transfer an appropriate portion to a 1-cm absorption cell and measure its absorbance at 540 nm. Use distilled water as a reference.
5. Correct absorbance reading of sample by subtracting absorbance of a blank carried through the method.

b) Film formation

Example : Preparation of TiO₂/chitosan film in condition 1% chitosan with 0.4%Ti (5x6 cm)

Total weight of slurry are 5 g

$$\text{Chitosan content} = 1\% = 0.05 \text{ g}$$

$$\text{Ti content} = 0.4\% = 0.02 \text{ g}$$

Used TiO₂

$$\text{M.W of Ti} = 48 \text{ g}$$

$$\text{M.W of TiO}_2 = (48)+2(16) = 80 \text{ g}$$

$$\text{Used TiO}_2 = (0.02 * 80)/48 = 0.033 \text{ g}$$

Total weight of slurry = 20%acetic acid solution +g of Chitosan+ g of TiO₂

$$= 4.917 + 0.05 + 0.033 \text{ g}$$

$$= 5 \text{ g}$$

APPENDIX B

BIOGRAPHY

Miss Piyaporn Kumket was born on January 1st, 1982 in Nakhonphanom, Thailand. She received her Bachelor's Degree in Environmental Engineering department from King Mongkut's University of Technology Thonburi(KMUTT) in 2005. After that, she pursued her Master's Degree studies in International Postgraduate Program in Environmental Management (Hazardous Waste Management). Inter-Department of Environmental Management Chulalongkorn University, Bangkok, Thailand on May 2005.
