

1. U.S. Department of Health, Education and Welfare, Public Health Service
Radiological Health Handbook. (1960)
2. R.H. Heath, Scintillation Spectrometer, Gamma-Ray Spectrum Catalogue.
Volume I 21, 22, 23. (1964)
3. International Atomic Energy Agency, Vienna, Radiological Method
Of Analysis Volume II **II** (1965)
4. International Atomic Energy Agency, Vienna, Production and
Use Of Short-lived Radioisotopes From Reactor, Volume II
7-11 (1963)
5. R.L. Branchard and G.W. Leddicotte, Oak Ridge National Laboratory,
The Determination Of Trace Elements In Water By Neutron Activation
Analysis. 5-6 (1959)
6. Naval Reactor U.S. Atomic Energy Commission, Chart Of The Nuclide.
(1965)
7. G.W. Leddicotte and S.A. Reynolds, Oak Ridge National Laboratory
Neutron Activation Analysis : A Useful Analytical Method For
Determination Of Trace Elements. 2-4 (1953)
8. R.H. Heath , Scintillation Spectrometry Gamma-Ray Spectrum Catalogue.
2nd Edition Volume **II** (1964)
9. C.E. Crouthamel, Argonne National Laboratory, Applied Gamma-Ray
Spectrometry. 347 - 393 (1960)
