Appendix A: Questionnaire for Patients Survey

Cost Effectiveness of Early Case Detection for Visceral Leishmaniasis in Nepal

Identification Number:			
Name of the patient:			
Age Sex] = Ma	le $2 = Fen$	nale
Address: VDC	Ward _		
		· · · · · · · · · · · · · · · · · · ·	
(To be filled	from service pro	vider's records)	
Clinical symptoms at presentation		Date	_
Fever for days			
(Please tick) Spleen Liver Limpsnode	<u>Normal</u>	Enlarge	<u>ed</u>
2. Screening test performed	1 = DAT	2= Aldehyde	3= Dipstick
Confirmatory test (Bone marrow),	if any	l=Yes 2=No	
3. Outcome of the test	1= Positive	2= Negative	
4. Diagnosis]=VL	2= Non-VL	
5. Treatment l= First line	2= Second line	3= Not given	
If 3, please specify			
6. Follow up: (Please tick) Date 1. 2. 3. 4. 5. 7. If hospitalized, number of days of hospit		l Outcome	
	o be asked to pat		
Can you remember when you first noti			
2. Did you go to seek health care then?		2=No	
If No. why			

3.	Do you remember how long it took you to seek health care since you first noticed the fever?
4.	How far is the hospital from your house?
5.	How did you travel to the hospital?
6.	How long does it take to go to hospital from your house?
7.	How much did you pay or have to pay to reach there?
8.	How much time did you spend for your treatment there?
9.	If you spend more than a day, where did you stay?
10.	How much did you pay per night of your stay there?
11.	Do you normally work? 1=Yes 2=No If yes, how much do you earn? per day/month/year
12.	Did any of your relatives accompany you while you came to the hospital?
13.	If they work, how much do they earn? per day/month/year
14.	Did any of your family members take care of you at home? 1=Yes, 2=No
	If yes, how many of them?
	If they work, how much do they earn? per day/month/year
15.	Drug cost
	Drugs No. of units consumed Price per unit Total expenses 1. 2. 3.
16.	If hospitalized:
	Days of hospitalization Per day charge Total cost
17.	Days of morbidity
	First day of fever Date of diagnosis Recovery date
18.	If you made other expenditure related to your treatment, can you please specify?
	Type of expenditure Units consumed Unit price Total
	1. 2. 3. 4.
19.	How long could you not work while you well sick? days

Appendix B: Background Information on Nepal

(Source: CIA Fact Sheet, 1999)

Chief of state: King.

Head of government: Prime Minister.

Capital: Kathmandu.

Official language: Nepali.
Official religion: Hinduism.

Location: Southern Asia, between China and India

Geographic coordinates: 28 00 N, 84 00 E

Area: Total - 140,800 sq km

Land: - 136,800 sq km Water - 4,000 sq km

Land boundaries: Total 2,926 km

Border countries: China (1,236 km & India 1,690 km)

Elevation extremes: lowest point: Kanchan Kalan 70m, highest point: Mount Everest 8,848 m

Natural Resources: quatrz, water, timber, hydrpower potential, scenic beauty, small deposits of

lignite, copper, cobalt and iron ore.

Monetary unit: 1 Nepalese rupee (NRs)=100 paisa (paisa);

Valuation (Jan. 1998) 1 U.S.\$=NRs 68.65; POUND STERLING 1 =NRs 109.63.

Demography

Sex ratio:

Population: 23,698,421 (July 1998 est.)

0-14 years - 42% (male 5,087,855; female - 4,779,941)

Age distribution: 15-64 years - 55% (male 6,655,865; female 6,387,255)

(July 1998 est.)
65 years and over - 3% (male 392,141; female 395,364)

at birth - 1.05 male(s)/female

under 15 years - 1.06 male(s)/female

15-64 years - 1.04 male(s)/female

65 years and over - 0.99 male(s)/female

Population projection: (2000) 23,042,000; (2010) 28,698,000.

Doubling time: 25 years.

Nepalese 53.2%; Bihari (including Maithili and Bhojpuri)

Ethnic composition (1991): 18.4%; Tharu 4.8%; Tamang 4.7%; Newar 3.4%; Magar 2.2%;

Abadhi 1.7%; other 11.6%.

Hindu 90%; Buddhist 5%; Muslim 3%; Kirat 1.7%; Christian

Religious affiliation (1991):

0.2%; other 0.3%.

Kathmandu 535,000; Lalitpur 190,000; Biratnagar 132,000; Major cities (1993 est.):

Bhaktapur 130,000.

Vital statistics

Birth rate per 1,000

35.66

population (1998 est.):

Death rate per 1,000

population (1998 est.):

10.44

Population Growth rate:

2.52% (1998 est.)

Total fertility rate (avg.

births per childbearing

4.87

woman; 1998 est.):

Life expectancy at birth:

male 58.04 years; female 57.74 years; total population 57.89 years

(1998 est.)

75.98 deaths/1,000 live births (1998 est.)

Infant mortality rate: Net migration rate:

0 migrant(s)/1,000 population (1998 est.)

Major causes of death per 100,000 population: n.a.; however, the leading causes of mortality are infectious and parasitic diseases, diseases of the respiratory system, and diseases of the nervous system.

National economy

Revenues: \$ 536 million

Budget (FY 96/97 est.) Expenditures: \$8.18 million, including capital expenditures of

\$NA.

Public debt (external,

Economic aid:

U.S.\$2,6 billion.

outstanding; 1997 est.):

ODA, \$411 million (FY 97/98)

real growth rate - 4.2 %

per capita - \$ 1,370 (1997 est.)

GDP:

composition by sector - agriculture 40%, industry 21%,

services 39% 91997 est.)

Inflation rate: consumer price index- 7.5% (1997 est.)

Total - 10 million (1996 est.)

Labour force:

by occupation - agriculture 81%, services 16%, industry 3%

Fiscal Year 16 July - 15 July

receipts from visitors U.S.\$117,000,000; expenditures by Tourism (1995):

nationals abroad U.S.\$136,000,000.

rice 3,578,830, sugarcane 1,568,700, corn (maize) 1,331,060,

Production (metric tonnes

except as noted).

wheat 1,012,930, potatoes 898,350, millet 282,440, pulses 185,640; livestock (number of live animals) 7,008,420 cattle,

Agriculture, forestry,

5,783,140 goats, 3,302,200 buffalo, 859,000 sheep, 670,340

fishing(1996):

pigs; roundwood (1995) 20,822,000 cu m; fish catch (1995)

21,148.

Mining and quarrying

(1995):

limestone 350,000; salt 7,000; talc 1,500.

Manufacturing (value added

in U.S.\$'000,000; 1994):

food products 70; textiles 70; wearing apparel 50; tobacco

products 37; nonmetal mineral products 32.

Construction: n.a. Energy

production (consumption):

electricity (kW-hr; 1994) 908,000,000 (940,000,000); coal

(metric tonnes; 1994) none (115,000); petroleum products

(metric tonnes; 1994) none (343,000).

Population economically

active (1991):

total 7,339,586; activity rate of total population 39.7%

(participation rates: ages 10 years and over, 57.0%; female

Average household size (1991) 5.6; income per household

45.5%; unemployed [1980] 5.5%).

Household income and

expenditure (1984-85)

NRs 14,796 (U.S.\$853);

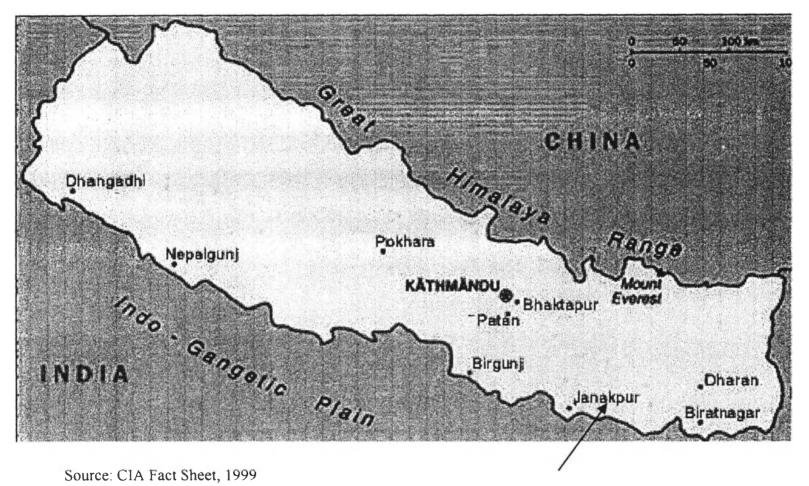

self-employment 63.4%, wages and salaries 25.1%, rent 7.5%, other 4.0%; expenditure: food and beverages 61.2%, housing

Sources of income:

17.3%, clothing 11.7%, health care 3.7%, education and

recreation 2.9%, transportation and communications 1.2%,

other 2.0%.

Siraha district, the study area, is near Janakpur.

Appendix D: Staffing Costs

Staffing Costs of Health Facility Based Case Detection Program (in Rupees, 1999 prices)

Category	Number	Gross Salary/month	Daily cost	Time spent in VL activities	Attribu- table days of salary/yr	Annual Salary attributable to VL activities
	(1)	(2)	(3) = (2)/26	(4)	(5)	(6)=(1)x(3)x(5)
Salary and benefits		-			_	
Medical Superintendent	1	6210	238.85	1 hr/day	45.29	10817.34
Sr. Medical Officer	1	6210	238.85	1 hr/day	45.29	10817.34
Nurses	1	4701	180.81	l hr/day	45.29	8188.78
Lab Technicians	2	4601	176.96	56 hrs/month	96.00	33976.62
Auxiliary Nursing Midwives	4	3380	130.00	1.5 hrs/day	67.93	35323.60
Lab Assistants	3	4008	154.15	2 hrs/day	90.57	41885.14
Vector Control Assistants	1	4095	157.50	l hr/day	45.29	7133.18
Store Keeper	2	3846	147.92	30 mins/day	22.64	6697.96
Administrative	2	3846	147.92	30 mins/day	22.64	6697.96
Assistants						
Medical Recordist	1	4095	157.50	20 mins/day	15.10	2378.25
Driver	1	3734	143.62	5 days/month	60.00	8616.92
Total Salaries						172533.08
Field allowances						
Medical Officer	1		200.00	5 days/month	60.00	12000.00
Vector Control	1		150.00	5 days/month	60.00	9000.00
Assistants						
Lab Assistants	1		150.00	5 days/month	60.00	9000.00
Driver	1		115.00	5 days/month	60.00	6900.00
Total Field Allowances						36900.00
TOTAL STAFFING COSTS						209433.08

Total working days in a year = 317

Total working hours in a day = 7

For Medical Superintendent, for example, the attributable days of salary per year =

 $(1 \times 317)/7 = 45.29$

Appendix E: Capital Costs

Calculation of Capital Costs of Hospital Based Case Detection Program (in Rupees, 1999 prices, Discount rate of 10 per cent)

Inputs	Purchase Price	Year of purchase	Useful life*	Current Price***	Annuali -zation factor	Annual cost	Alloca -tion %	Annual program Cost

Appendix G: Calculation of Unit Costs for Investigations

Items required	Quantity	Unit price	Total costs	Remarks
Bone marrow		·		
Bone marrow needle	0.5	350.00	175.00	One needle is used for two tests
Xyloquene	2 ml	1.50	3.00	
Syringe	2	5.00	10.00	
Handyplast	2	2.00	4.00	
Stain	10 ml	0.80	8.00	Rs 400 for 500 ml
Slide	10	2.00	20.00	
Betadine	2 ml	1.50	3.00	
Spirit swab	2	0.75	1.50	
Total			224.50	
TC/DC				
Slide	1	2.00	2.00	
Stain	2 ml	0.80	1.60	Rs 400 for 500 ml
Syringe	1	5.00	5.00	
Counting chamber	1	9.00	9.00	Rs 1800 for 200 tests
WBC dilutinmg fluid	1	2.00	2.00	
Spirit swab	1	0.75	0.75	
Vial	1	4.00	4.00	
Total			24.35	
Aldehyde				
Syringe	1	5.00	5.00	
Tube	1	12.00	12.00	
Spirit swab	1	0.75	0.75	
Farmalin	2 drops	0.05	0.10	16 drops = 1 ml = Rs 0.40
Serum separated tube	1	8.25	8.25	
Total			26.10	
Hb test	1	20.00	20.00	Brabkins solution 5ml @ Rs 4 per ml

Appendix H: Calculation of drug costs to providers and patients

Name of drugs and	Quantity	Unit price	Costs to		Total	Remarks
accessories			Providers	Patients	costs	
Treated with SAG						
SAG	6 vials	130	780		780	
Syringe	60	5		300	300	
Other drugs						
Iron tablets	60	2		120	120	
Analgesic	2 tabs	50		100	100	
Total			780	520	1300	
Treated with Amphotericin B Amphotericin B	14 vials	800	11200		11200	Given only when the patient is not responding to SAG
Syringe	12	5	11200	60	60	
Saline	14 pints	25		350	350	
IV set	4	25		100	100	
Canula	4	60		240	240	
Total			11200	750	11950	

APPENDIX I: Summary Statistics of VL Cases Interviewed

		Outreach Detection Program	Health Facility Based Detection Program
Number of cases interviewed		28	22
Male: Female		1:2	1:1
Age	Mean	27.5	24.3
_	Min	5.0	8.0
	Median	25.5	25.0
	Max	65.0	50.0
	SD	15.3	12.1
Earnings (Rs per day)	Mean	35.1*	58.8
	Min	25.0*	25.0
	Median	35.0*	40.0
	Max	70.0*	300.0
	SD	11,5*	64.8
Days of absence from work	Mean	59.4	100.7
•	Min	30.0	12.0
	Median	30.0	90.0
	Max	270.0	330.0
	SD	54.2	75.3
Duration of morbidity (days)	Mean	172.3	145.8
• • •	Min	60.0	40.0
	Median	120.0	127.5
	Max	730.0	395.0
	SD	140.5	95.1
Time between infection and seeking health care (days)	Mean	80.3	57.6
	Min	5.0	2.0
	Median	52.5	30.0
	Max	270.0	300.0
	SD	44.2	72.4
Distance to hospital (kms)	Mean	32.0	18.6
• ` ,	Min	1.0	3
	Median	35.0	16.5
	Max	40.0	60
	SD	9.1	13.5
Time of travelling to hospital (hrs)	Mean	1.8	2.0
	Min	1.0	1
	Median	2.0	1.5
	Max	3.0	7
	SD	0.4	1.5
Days spent in hospital for treatment	Меал	10.1**	12.8
	Min	1.0**	0
	Median	1.0**	5.5
	Max	30.0**	38 0
	SD	12.0**	14.1
* n = 27 ** n = 10			

^{*} n = 27 ** n = 10

Appendix J: Patients Costs

Costs to patients due to VL by different headings (in Rupees, 1999 prices)

		Outreach Detection Program (n=28)	Health Facility Based Detection Program (n=22)
Opportunity costs to relatives in	Mean	192	1076
accompanying patients to	Min	25	33
hospitals	Median	40	937
•	Max	1200	3600
	SD	365	982
Opportunity costs to relatives	Mean	333	1660
for taking care of the patient at	Min	0	0
home	Median	0	1175
	Max	1800	7300
	SD	602	1738
Indirect costs to patients due to	Mean	2016	6483
absence from work	Min	0	480
	Median	1200	4500
	Max	10800	32400
	SD	416	7478
Out of pocket drug costs	Mean	354	1430
S. Fermer all coops	Min	0	0
	Median	0	500
	Max	4825	9000
	SD	982	2141
Out of pocket costs of	Mean	15	384
hospitalization	Min	0	0
nospitalization	Median	0	322
	Max	300	1350
	SD	60	357
Travelling cost	Mean	87	58
Travelling cost	Min	60	0
	Median	80	44
	Max	180	200
	SD	4	56
Total indirect costs	Mean	2542	9220
I VIAI IIIUII CCE CUSES	Min	775	1485
	Median	1525	8540
	Max	10830	39980
	SD	2273	8380
Total direct cost			
Total direct cost	Mean	848 60	2883
	Min		580
	Median	112	2154
	Max SD	8380 346	9120 2277
Table and			
Total costs	Mean	3391	12103
	Min	855	3253
	Median	1670	9954
	Max	14380	47695
	SD	3397	9460

CURRICULUM VITAE

Name Subhash Pokhrel

Date of Birth : February 6, 1970

Sex : Male

Religion 5 Hindu

Country : Nepal

Postal Address P. O. Box 11466, Kathmandu, Nepal

Email Address pokhrels@hotmail.com

Educational Qualification: MSc in Statistics (1995)

Tribhuvan University, Nepal

Working Experience

August 1997 to date Research Officer

BPK Center for Ophthalmic Studies,

Tribhuvan Univeristy, Institute of Medicine PO Box 8750, Maharajgunj, Kathmandu, Nepal

July 1995 to Aug 1997 : Statistician

B.P. Koirala Institute of Health Sciences

Dharan, Nepal

Areas of interest : Health research and development,

specifically health economics
