APPENDIX

Data of experiment

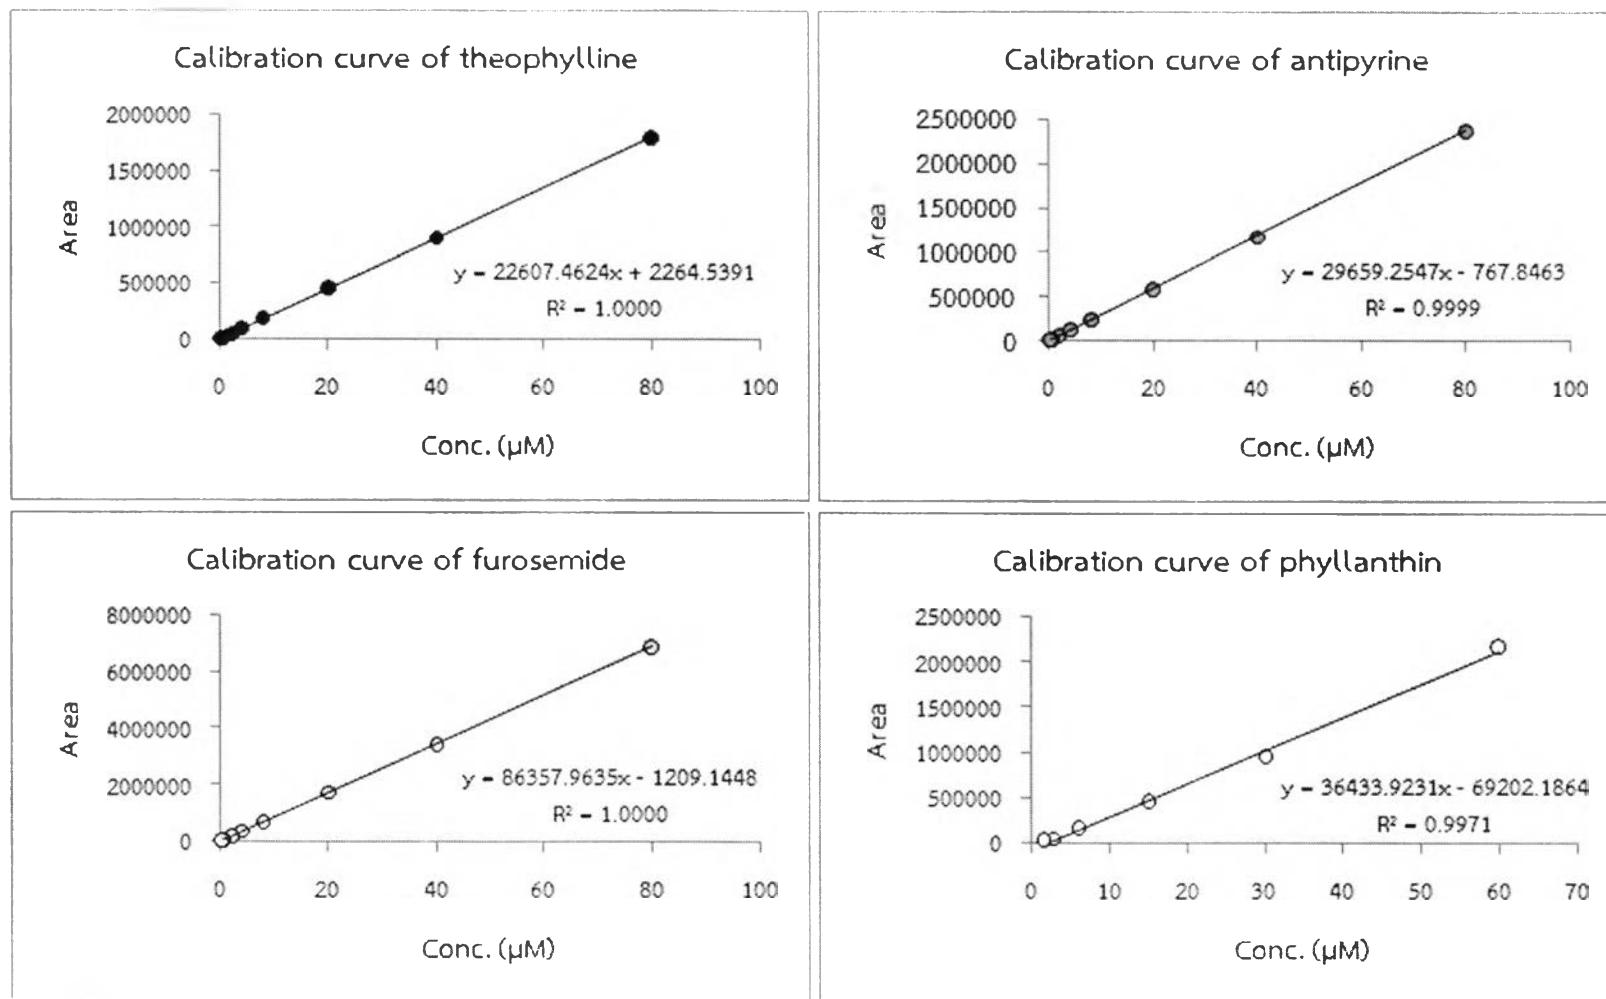

Figure 18.1 Calibration curves of theophylline, antipyrine, furosemide and phyllanthin in basolateral buffer.

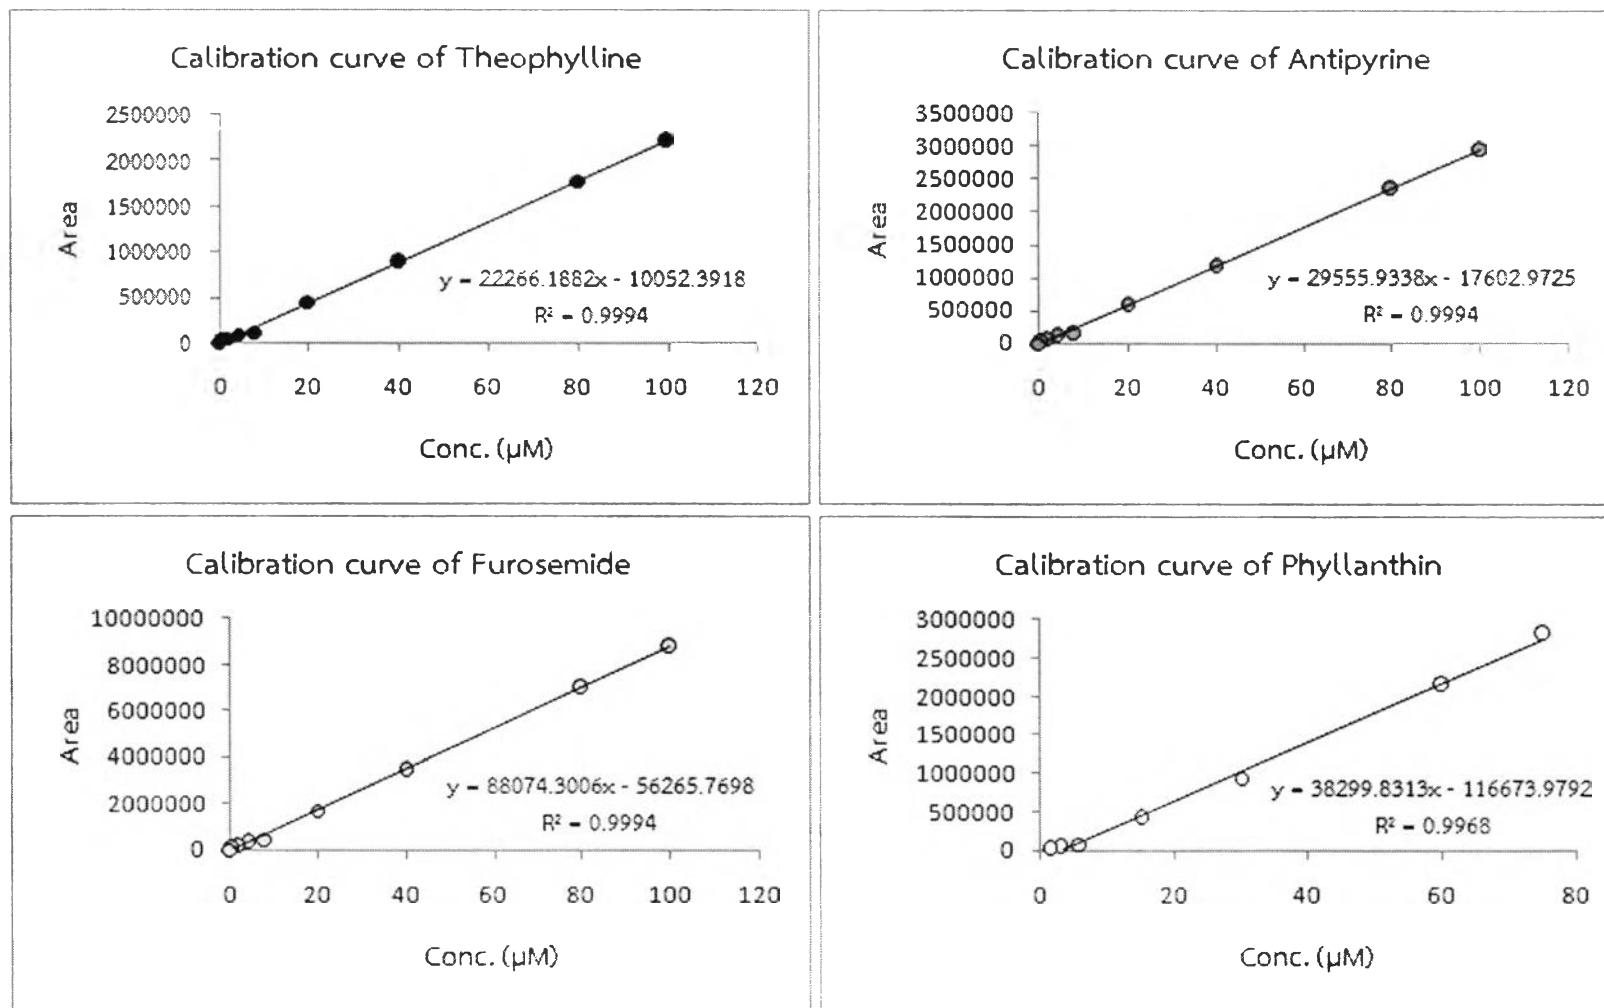

Figure 18.2 Calibration curves of theophylline, antipyrine, furosemide and phyllanthin in basolateral buffer.

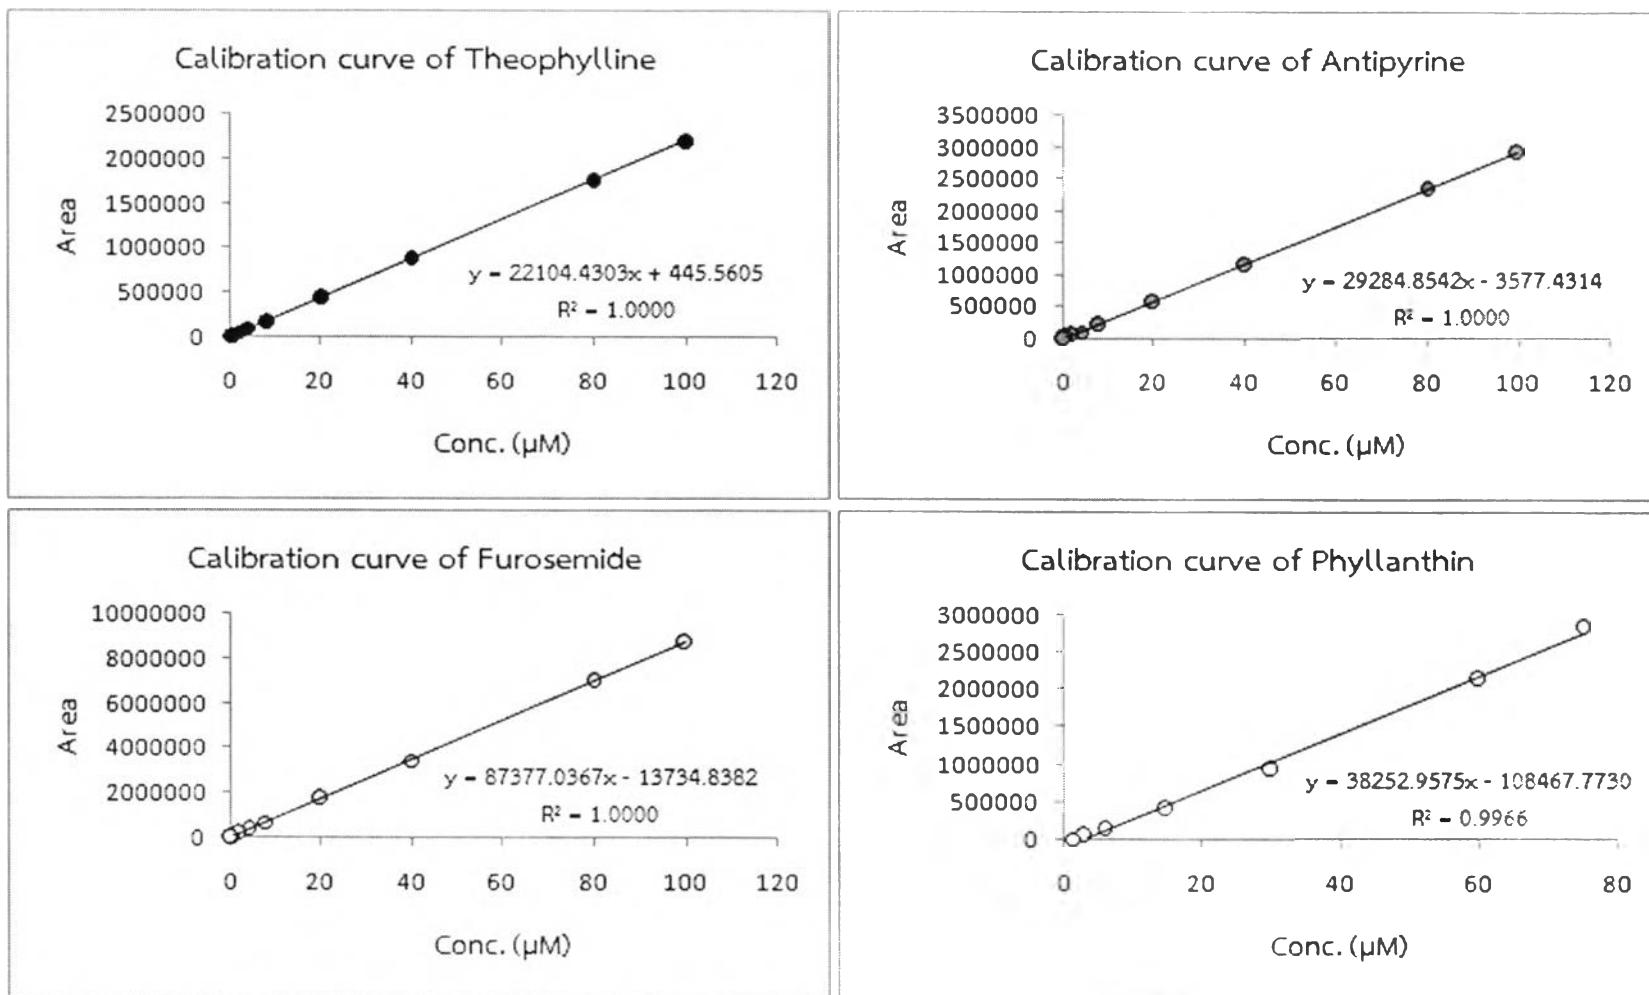

Figure 18.3 Calibration curves of theophylline, antipyrine, furosemide and phyllanthin in basolateral buffer.

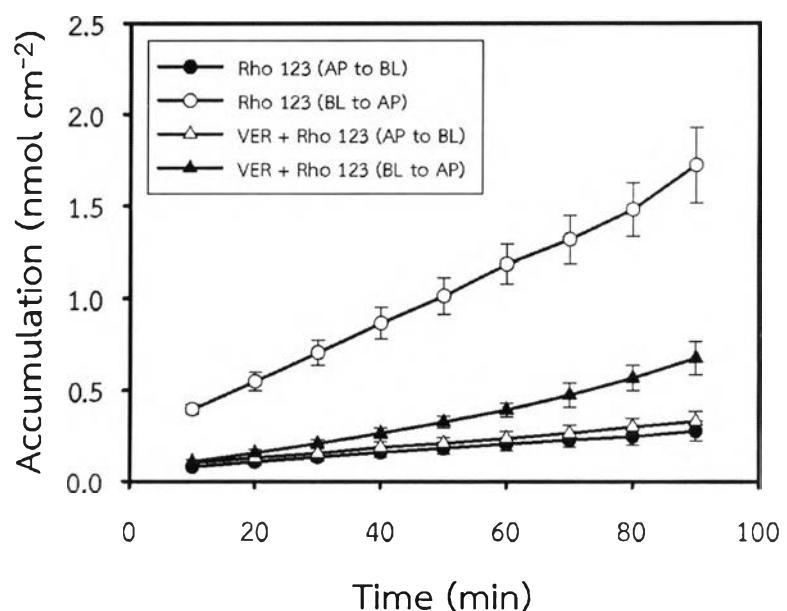

Figure 19. The accumulation of rhodamine 123 across the Caco-2 cell monolayers in both the apical-to-basolateral (AP-to-BL) direction and the basolateral-to-apical (BL-to-AP) direction in the presence and absence of verapamil.

VITA

Miss Wilasinee Dunkoksung was born on December 11, 1986 in Nakhon Ratchasima, Thailand. She received the Bachelor's degree in Pharmacy from the Faculty of Pharmacy, Chiang Mai University, Chiang Mai, Thailand in 2010.

She has received the research scholarship in The 90th Anniversary of Chulalongkorn University fund (Ratchadaphiseksomphot Endowment Fund), under the title "Permeability of phyllanthin across Caco-2 cells" in 2012.
