VITA

Miss Tuangrat Chaichana was born on March 10, 1977 in Nan, Thailand. She graduated with a Bachelor of Science Degree in Mathematics from Chiangmai University in 1998. Then she went to study in Mathematics for a Master degree program at Chulalongkorn University with a scholarship from the Ministry Staff Development Project and graduated in 2001. At present, she is working towards a Ph.D. in Mathematics at the Faculty of Science, Chulalongkorn University, with a scholarship from the Ministry Staff Development Project again. The scholarship allowed her to go abroad for one year, from which she went to Pensylvania State University as a visiting scholar from August 1, 2004 to May 12, 2005. After graduation she will become an instructor at the Department of Mathematics, Chulalongkorn University.
