Biography

Pornpranod Didsayabutra was born in Chonburi, Thailand, in 1972. He received B.Eng and M.Eng in Electrical Engineering from Chulalongkorn University in 1993 and 1996. He joined the Center of Excellence in Electrical Power Technology (CUCEPT), Faculty of Engineering, Chulalongkorn University in 1996 as a researcher. At CUCEPT, he had involved in many research projects regarding power system planning and operation. He pursued his Ph.D. program at Chulalongkorn University in 1997. He has been a visiting scholar at the Energy System Research Center (ESRC), The University of Texas at Arlington since 1999 to continue his dissertation research (partially sponsored by CUCEPT).
