Biography

Pramual Sututeecharuwat was born in 1972 at Bangkok, Thailand. He graduated from Chulalongkorn University in 1995 with a Bachelor of Engineering in Industrial Engineering, B.Eng.(IE). After graduation, he was employed as a staff consultant at Andersen Consulting in 1995 where his responsibility was on database programming. He has been working as a faculty member at the Department of Industrial Engineering, Faculty of Engineering, Chulalongkorn University since September 1995. During April to August 1997, he got a scholarship from TJTTP-OECF to study about the intelligent manufacturing systems at Nagao-Mitsuishi's laboratory, The University of Tokyo, Japan. His personal interests are the computer applications for business, management of information systems, computer graphics, artificial intelligence, computer networking and internet.
